

1. Database and Schema

The screenshot shows the Snowflake Database Explorer interface. On the left, the 'Horizon Catalog' sidebar is visible with options like Projects, Ingestion, Transformation, AI & ML, Monitoring, Apps, Marketplace, Catalog (selected), Data sharing, and Governance & security. The main panel displays the 'Database Explorer' for 'DE_PROJECT1'. The 'Databases' tab is active, showing a search bar and a list of databases: DE_PROJECT1 (selected), INFORMATION_SCHEMA, PUBLIC, SNOWFLAKE, SNOWFLAKE_LEARNING_DB, SNOWFLAKE_SAMPLE_DATA, and USERS\$HLUMISAS. The 'DE_PROJECT1' database is expanded, showing its schema: INFORMATION_SCHEMA, PUBLIC, SNOWFLAKE, SNOWFLAKE_LEARNING_DB, SNOWFLAKE_SAMPLE_DATA, and USERS\$HLUMISAS. The 'Database Details' tab is active, showing the 'Description' (First_Snowflake_Project) and 'Assigned contacts' (Steward, Support, Approver, Security & compliance). The 'Tags' section is also visible.

2. Table creations

The screenshot shows the Snowflake SQL editor interface. The 'Untitled.sql' file is open, and the SQL code is as follows:

```
1 create table DE_PROJECT1.DBO.customers(  
2   customer_id varchar(250)  
3   ,customer_name varchar(250)  
4   ,email varchar(250)  
5   ,province varchar(250)  
6   ,signup_date datetime  
7 )
```

The 'Results (2 hours ago)' tab is active, showing a single row of results:

status
1 Table CUSTOMERS successfully created.
